

FIBRE CEMENT PITCH IDENTIFIER

This datasheet provides a comprehensive overview of the degree/pitch stamps used during the manufacturing process of fibre cement products. These stamps play a crucial role in ensuring the quality and performance of the final product by indicating the degree or pitch characteristics.

Below is a table displaying our stamp numbers, which are prominently featured on the side of our fibre cement products, along with their corresponding degree/pitch values presented in both EURO and UK formats. These stamps are crucial identifiers aiding in the precise determination of degree or pitch characteristics across our product range, ensuring consistency and quality in construction applications.

STAMP	EURO DG	UK DG
135	135	22.5°
140	140	20°
145	145	17.5°
150	150	15°
155	155	12.5°
160	160	10°
165	165	7.5°
170	170	5°
